

The Department of International Relations and European Studies cordially invites you to a seminar on the topic of

Domestic and Gender-based Violence as a Human Rights Violation

Gender-based violence is one of the most prevalent human rights violations in the world. It knows no social, economic or national boundaries. Worldwide, an estimated one in three women will experience physical or sexual abuse in her lifetime.

Gender-based violence has become an umbrella term for any harm that is perpetrated against a person's will, and that results from power inequalities that are based on gender roles.

The seminar will provide an overview of international instruments focused on tackling gender-based violence and current issues connected to domestic and gender-based violence in the context of the Czech Republic as well as other European countries.
